# HOW DOES THE TOMORROW LOOK LIKE?

**HOW SHOULD OUR SCHOOLS BE?**

## When you decide to start a school, you have

- made resolution to close the doors of all the evils in the society.
- taken up the responsibility to build a worthy student community which strives to repair the world around with their knowledge, values and wisdom.
- called upon the accountability of being answerable to the stake holders who have invested in your school.
- taken up the responsibility to transform the mirror into a window from which the student can see the new horizons of successful existence.
- given a hope to the parents that their child would be the responsible bread winner of the family and a ray of hope whom they will look up to in their old age
- made a commitment to yourself to be the role model for the staff and students and your thought process and vision should resonate with the whole school ecosystem

## WHAT

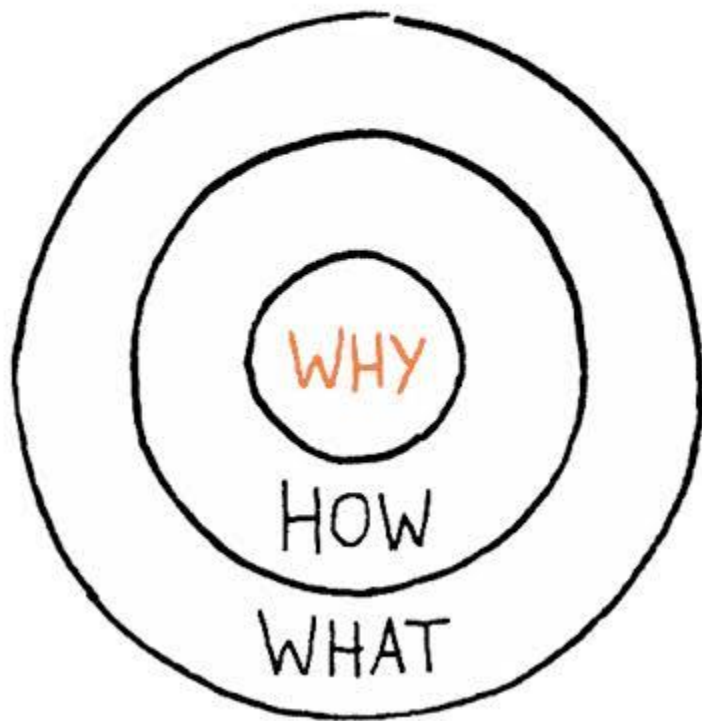

Every organization on the planet knows WHAT they do. These are products they sell or the services

## HOW

Some organizations know HOW they do it. These are the things that make them special or set them apart from their competition.

## WHY

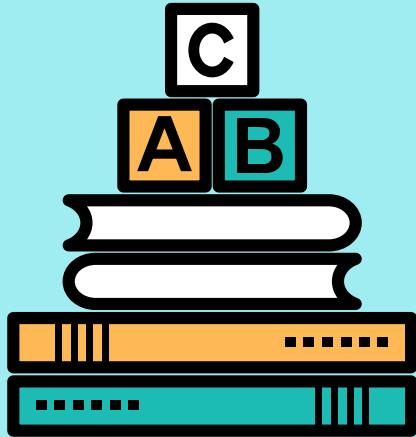

Very few organizations know WHY they do what they do. WHY is not about making money. That's a result. WHY is a purpose, cause or belief. It's the very reason your organization exists.
