# Allah is the Provider

Once four friends went to another city. They had food and water with them. After few days the food was over. They did not have money to buy the food.

They decided that one of them should go and ask for food. They drew the lottery. Ibn Khuzaima's name came in the draw. Ibn Khuzaima said, 'I will not beg before anyone!' He offered two rakat namaz and prayed to Allah for food. The King of that country had a dream. He saw that he was helping four hungry men. He got up and started searching. He found these four men and gave them two hundred gold coins.

**You should always ask Allah for any help.**
